Manufacturer Provided Description

The Manhattan 63 is a perfect example of a boat that packs innovation, luxury and performance into an exceptionally graceful frame. The hull form has been designed to take a more traditional shaft option but now includes the option of IPS drives - the latter produces fantastic results in performance, handling and economy. Interior options offer upper deck or lower deck galley, three or four staterooms with a midships full-beam master and very large hull-side windows. Saloon and entertainment space has been increased and enlarged and panoramic superstructure windows ensure a feeling of openness.
