**YW# :**

Designed by world-renowned Italian naval architect Riccardo Bulgarelli, the ITAC 54 is a remarkable achievement in power catamaran design.

This long-range passage-making catamaran delivers the features and performance of a 70ft monohull yet is easy to handle without crew. Offering the best in luxury appointments and finishes at a price that challenges production power catamaran models throughout the industry.

Bulgarelli worked in Italy for many years for some of the world's leading shipyards before establishing his own design office in China. He has designed and project-managed the build of many exclusive custom vessels as large as 112ft for export to the world market with great success. This ITAC 54 is no exception.
