# Lagoon 450S (2019)

CATAMARAN

## Lagoon 450 S – SporTop Version!

Marc Van Peteghem & Vincent Lauriot Prévost architects, together with Lagoon and the Nauta Yachts design office, succeeded beautifully in developing this 45' catamaran. There is one enhanced steering station where 3 persons can sit, a big cockpit, an additional forward cockpit and an incomparable comfort in the saloon and the cabins.

Larger and with a bigger sail area, this Lagoon 450 is offered in a 4 cabin version with ensuite bathrooms, 2 single berth in the bows, and also benefits from important improvements in terms of safety, performance and cruising comfort. This luxury, fully air conditioned yacht is completely self sufficient for water with a production of 100 l/hour, thanks to her 11kW Generator.

One main winch at the helm and the davit winch are electrical and three extra batteries and 4 solar cells will supply the power capacity needed. Beside the depth sounder you will benefit from a forward looking sonar. Impressive inventory and electronics, see below.
